

## Dramatic scenery and culinary gems

Kullaberg is the name of the 8 km long mountain crest, 20 km north of Helsingborg, with Mölle as the most famous summer destination. The whole area is a mecca for nature lovers, whether you are into action like rock climbing, mountain biking, scuba diving and kayaking. Or maybe you just want to take in the sights of the rocks and beautiful scenery with a picnic basket or try out local specialties by visiting pastry shops, farm shops, wineries and apple farms.

In that regard, the town of Höganäs is certainly worth a visit. The old ceramics

factory has been converted into a farmers market (Saluhall) where you can pick out local specialties and bring back with you, or enjoy a nice lunch in ambient surroundings around the old ceramic ovens.
